Series: NA

Text: 2 Cor. 5:1-10

Synopsis: God always wants us to be growing in our relationship with Him and to be changed more and more into the likeness of our Lord Jesus in what we say, do, and think. He wants us to be the men, women, boys, and girls that He has created us to be in His Son so that we can not only make an impact in the world in which we live and bring glory to Him but also experience the reality of Jesus in our lives in a real, personal, and intimate way.

But sometimes change don't come easy. We sometimes think that that's just the way I am, I have always had a bad temper, or I have always been a worrier, or I've always talked that way, or fill in the blank. Well that may be the way you are but not the way God wants you to stay. The good news is that in Jesus, real and lasting change is possible and takes place when we learn a few fundamental principles from God's Word.
